

What can we develop together?

1. ABOUT CRUX

Crux are world-leaders in the design, simulation and analysis of medical devices and consumer products; working as a trusted partner to many medical companies and household brand names, our projects touch lives by delivering a vast array of products to global markets.

2. ADVANCED MECHANICAL ENGINEER

Crux is on the lookout for talented Advanced Mechanical Engineers. We love to solve the hardest technical problems and see the impact it makes. At Crux, our Advanced Mechanical Engineers work on multidisciplinary projects in medical device development, sustainability, consumer goods and beyond. As part of our team, you will work directly with multinational “household name” clients on projects requiring design, prototyping, analysis and testing and will support the wider Crux team through leadership in your areas of expertise.

3. WHAT WE'RE LOOKING FOR...

- A strong First classification in a relevant accredited degree program.
- 3+ years of experience in a hands-on engineering role with demonstrable achievements.
- A genuine and demonstrated enthusiasm for engineering.
- Strong mathematical skills and ability to apply “first principles” to problems.
- Knowledge of engineering materials and manufacturing processes.
- Hands-on experimental and/or prototyping skills.
- Meticulous attention to technical and written detail.
- Ability to build relationships and work with teams and clients.

4. WHY YOU'LL LOVE WORKING HERE

We are a dynamic and fast-growing engineering consultancy that takes pride in its outstanding work and supportive work environment. As part of our team, you'll be working within a family of high-performing expert engineers. Our strong community is built upon effective communication and happy employees, collaboration in project work and regular social events are the norm.

Check out what an opportunity at Crux offers you: [Life at Crux](#)

If you're interested in working on multidisciplinary design projects, tackling some of the toughest briefs in the medical and consumer goods sectors, then we want to hear from you!

Interested? Email your CV and covering letter to careers@cruxproductdesign.com and add 'Advanced Mechanical Engineer' as the email subject.
